Marketing Pipeline Attribution Definitions

Mode Definition: @mkt_pipeline_attribution

Author: Ruby Valadez

Last Updated: Feb 22, 2024

First Created: Feb 22, 2024

Parent Document: [Reporting Hub](#)

Overview

This document outlines the definitions of all the fields in the [@mkt_pipeline_attribution](#) view in Mode. That table is the user friendly version of our marketing attribution model. It joins with Opportunities and Campaign members fields and should be considered the one-stop shop for performing attribution analysis in Mode.

To use in mode:

```
SELECT
  *
FROM {{ @mkt_pipeline_attribution }}
WHERE ATTRIBUTION_CHANGE_DATE BETWEEN '2023-02-01' AND '2024-01-31'
```

(Replace the dates with your selected date ranges)

Field Definitions

Field Type	Field Name	Field Definition
------------	------------	------------------

Benchling Document

Author Name

Attribution

ATTRIBUTION_CHANGE_DATE	When reporting on attribution by date, this is the field to use The date in which the deal value is divided by the total number of successful campaign engagements
ATTRIBUTION_CHANGE_FISCAL_QUARTER	The fiscal quarter of the attribution event
ATTRIBUTION_CHANGE_FISCAL_YEAR	The fiscal year of the attribution event
ATTRIBUTION_CHANGED_VALUE	The deal value, positive or negative, being attributed to a successful campaign engagement
ATTRIBUTION_CHANGED_PERC	The percent of the total number of successful campaign engagements associated with the attribution change
ATTRIBUTION_CHANGE_RANK	The order of touch within the attribution event history for the specific attribution type (influence or maturation) ie the touches are grouped by opportunity and attribution type and then ordered. So the first influence touch will be 1, the first maturation touch will also be 1
ATTRIBUTION_CHANGE_RANK_INV	The INVERSE order of touch within the attribution event history for the specific attribution type (influence or maturation) ie the touches are grouped by opportunity and attribution type and then ordered. So the LAST influence touch will be 1, the LAST maturation touch will also be 1
ATTRIBUTION_TOUCH_TYPE	Whether the successful campaign engagement was a campaign (Marketing), SDR Activity or AE Activity
ATTRIBUTION_TOUCH_DATE	The date in which a successful campaign engagement occurred . This is the date of the attribution event, not the date of the opportunity change. For example, a campaign could occur on 2/3/2023 but the deal didn't get created until 3/1/2023. - The ATTRIBUTION_TOUCH_DATE would be 2/3/2023 - THE ATTRIBUTION_CHANGE_DATE would be 3/1/2023 - For reporting, the CHANGE_DATE would typically be the one to use

Benchling Document

Author Name

_ATTRIBUTION_FIRST_TOUCH_INFLUENCE	The deal value attributed if the successful campaign engagement was First Touch. Underscore because this is a prototype and not final model
_ATTRIBUTION_LAST_TOUCH_INFLUENCE	The deal value attributed if the successful campaign engagement was Last Touch. Underscore because this is a prototype and not final model
_ATTRIBUTION_TOTAL_OPPORTUNITY_TOUCHES	The sum of all touches on the opportunity.
_ATTRIBUTION_COUNT	This will equal 1 for each touch record. Underscore because this is more used as an input rather than a final calculation.
ATTRIBUTION_CHANNEL	The attribution channel associated to the successful campaign engagement (AE Activity, AE Outreach, Affiliate Marketing, Benchtalk - Summit, campaign, Content Syndication, Direct Mail, Email Drip, Email Send - Third Party, Event - First Party, Event - Third Party, Newsletter, Nurture, Paid Media, Sales Outreach, SDR Activity, SDR Outreach, Webinar) This is different than campaign channel which would be null for non-campaign activities
ATTRIBUTION_TYPE	Whether the successful campaign engagement is getting attribution in the form of Pipeline Influence or Pipeline Maturation Influence = Pre-opportunity creation Maturation = Post-opportunity creation (before close)
ATTRIBUTION_TOUCH_RECORD_ID	The Activity or Campaign Member ID of the associated touch. This can be used for counting the unique touches.
MEMBER_NAME	The name of the campaign member associated with the attribution touch
MEMBER_TITLE	The title of the campaign member associated with the attribution touch
MEMBER_SENIORITY	The seniority of the campaign member associated with the attribution touch
MEMBER_FUNCTION	The business function of the campaign member associated with the attribution touch

Campaign Member

These fields are all related to the campaign member record if it was a campaign touch. If it wasn't a campaign touch, these fields would be null

Benchling Document

Author Name

MEMBER_EMAILABLE_STATUS	The email status of the of the campaign member (0 - eligible, 1 - unknown status, 2 - ineligible)
MEMBER_EMAILABLE_STATUS_DETAIL	Further detail about the email status bad data of the campaign member (blocked account, customer, limbo - marketing conversion, limbo - marketing event, limbo - sales created, no email, non-target, opt-in, opt-out, other, single opt-in, suspended, user)
MEMBER_EMAILABLE_REGION	The level of email opt-in required based on the member's location (level 1 level 2, level 3, unknown region)
MEMBER_EMAIL	The email address of the of the campaign member
MEMBER_STATUS	The campaign status of the of the campaign member
MEMBER_HAS_RESPONDED	Whether the campaign member has a successful engagement (true) or not (null)
MEMBER_COUNTRY	The country of the campaign member associated with the attribution touch
MEMBER_UTM_CONTENT	The UTM_content of the member at the moment of campaign conversion
MEMBER_UTM_SOURCE	The UTM_source of the member at the moment of campaign conversion
MEMBER_UTM_CAMPAIGN	The UTM_campaign of the member at the moment of campaign conversion
MEMBER_UTM_MEDIUM	The UTM_medium of the member at the moment of campaign conversion
MEMBER_UTM_TERM	The UTM_term of the member at the moment of campaign conversion
CAMPAIGN_MEMBER_ID	The SFDC ID of the campaign member (different than Contact or Lead ID)
LEAD_OR_CONTACT_ID	The Lead or Contact ID of the member (note this is different from Member ID which is specific to the campaign it's associated with). NOTE: this is populated for both campaign members and activities. For activities it is the person the activity is with
ACTIVITY_ID	The ID of the activity record if it is an activity touch.

Author Name

Campaign

These fields are all related to the campaign record if it was a campaign touch. If it wasn't a campaign touch, these fields would be null

		NOTE: This table is not joined with the activity table because of the number of records in that table
CAMPAIGN_NAME		The name of the campaign the member is in
CAMPAIGN_TYPE		The type of campaign the member is in
CAMPAIGN_SOLUTION_CAMPAIGNS		The plays that this campaign are a part of. Managed by the campaign owner. Used for reporting by parent solution campaigns.
CAMPAIGN_CHANNEL		The campaign channel the member is associated with. If the touch wasn't a campaign touch, this is null
CAMPAIGN_REGION		The region the campaign takes place in/targets (EMEA, AMER, Global)
CAMPAIGN_ID		The SFDC ID of the campaign.
CAMPAIGN_START_DATE		The start date of the campaign
CAMPAIGN_PARENT_ID		The SFDC ID of the parent campaign of the attribution campaign. This is populated if the campaign is part of larger campaign
OPPORTUNITY_OWNER_NAME		The name of the AE that owns that opportunity related to attribution
OPPORTUNITY_OWNER_MANAGER_NAME		The name of the manager of that AE
OPPORTUNITY_DEAL_TYPE		Whether the opportunity is New Business, Expansion or Renewal (or in edge cases, Other)
OPPORTUNITY_DEAL_TYPE_REPORTING		Simplification of Deal Type in which Renewal is included in Expansion
OPPORTUNITY_TYPE_RAW		Elaborates further on the Deal Type, ie Debooking, Churn, Contractions, etc
OPPORTUNITY_REGION		The region of the opportunity, ie AMER, EMEA or APAC
OPPORTUNITY_STAGE		The current stage of the opportunity. Includes every stage in every Deal Type

Opportunity

These fields are related to the deal that is getting attribution credit. Common fields are included to help eliminate the need for further joins.

Benchling Document

Author Name

OPPORTUNITY_STAGE_RANK	Same as Opportunity_Stage and includes numerical values that clarifies the order of stages
OPPORTUNITY_NAME	The name of the opportunity
OPPORTUNITY_TOTAL_ARR	The total ARR of the opportunity
OPPORTUNITY_CREATED_DATE	Date the opportunity was created
OPPORTUNITY_FQ_CREATED	The FY and FQ an opportunity was created, ie FY25Q1
OPPORTUNITY_FY_CREATED	The FY an opportunity was created
OPPORTUNITY_CLOSE_DATE	The date the opportunity was closed
OPPORTUNITY_FQ_CLOSED	Simplifies the close date to the FQ an opportunity was closed, ie FY25Q1
OPPORTUNITY_FY_CLOSED	The FY an opportunity was closed
